

1. This top section needs changed to something like below (including the content). Obviously, this is from AI so we need to make it more personalised and real.  
**Keep the CTAs.**

Most accountants  
file your returns.  
We run your *finance function*.

Growing businesses are consistently underserved by accountants who treat compliance as a box-ticking exercise. A2Z was built specifically to change that — to give ambitious businesses the structured, fully managed finance function they actually deserve.

**Shabbir Rahman, FCCA, Econ (Hons)** — Fellow of the Association of Chartered Certified Accountants, the highest qualification in the profession — founded A2Z after managing complex international group accounts at **Subsea 7**, a multibillion-pound oil and gas contractor, to Big 4 audit standards imposed by Deloitte and EY. That level of rigour is what every A2Z client receives.

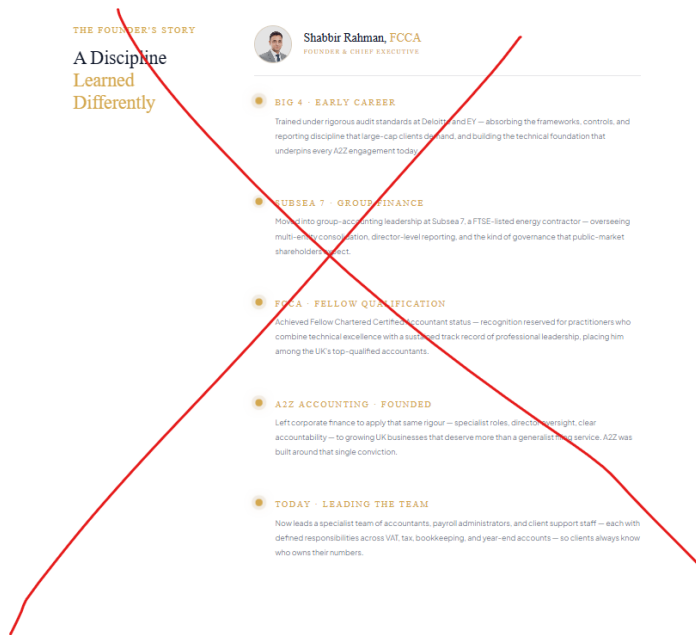

**Shabbir Rahman, FCCA, Econ (Hons)**

The below section needs to be presented after Founder section (**but improve the design, and font style and background – this is just my idea**):

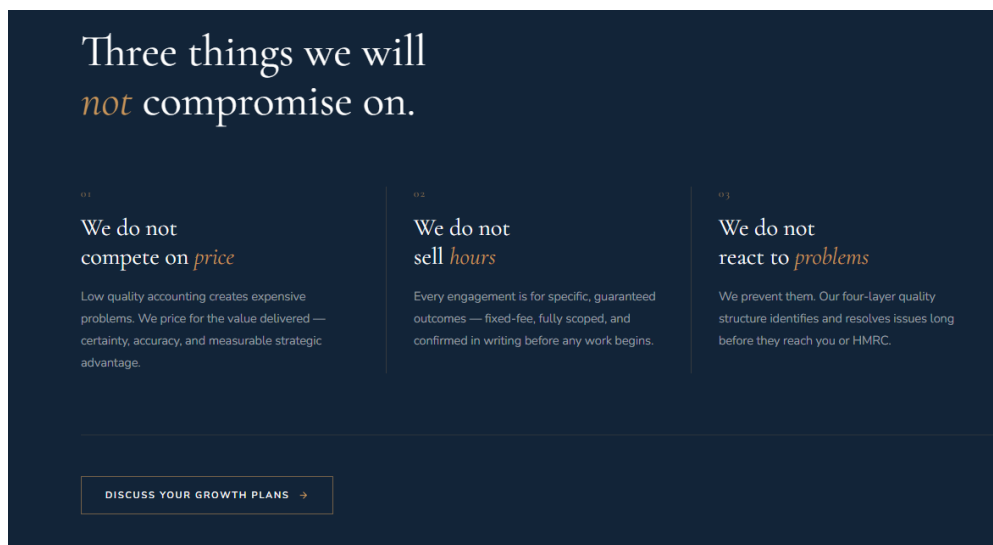

Every client is served by a *dedicated team* of specialists — not a single generalist.

Every piece of work reviewed to **FCCA standard** before it leaves the firm.

## 2. Remove this section

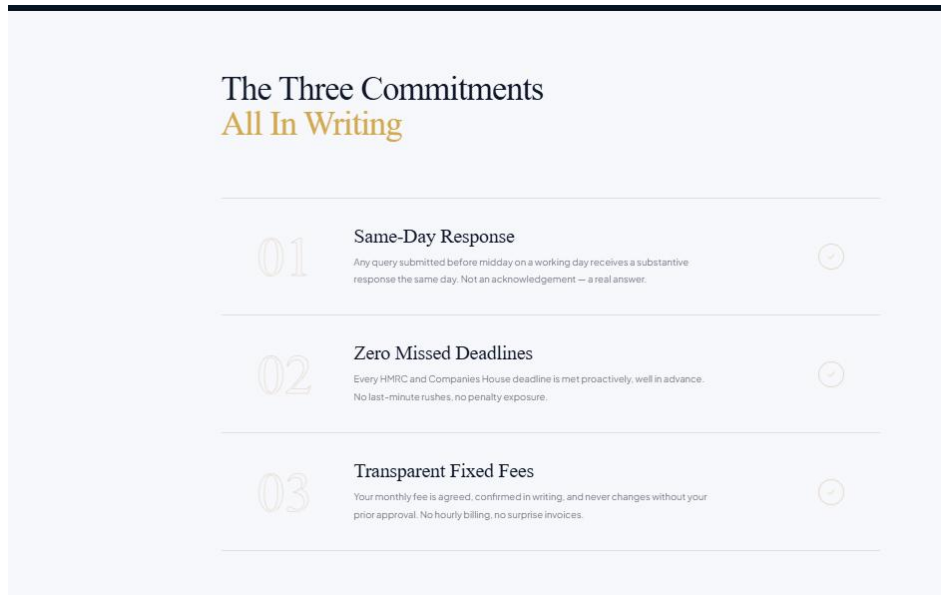

## 3. Redo the next section like this

#### 4. Remove this part

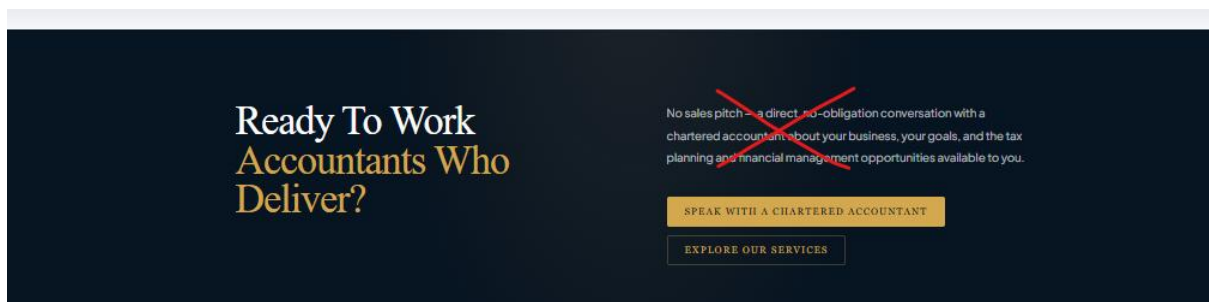

5. I think this section should be redesigned nicer and presented towards the top of the page

6. This section looks messy, unclear and there is no trust badge. Anyone can claim that this was from a client when it was not so if this was on Google, need google icon on each one.

7. Remove the crossed part

8. Move the part up shown by an arrow and the circled part has font size too large
